TEJRAJ JALINDAR MANE

AI AND DATA SCIENCE ENGINEERING

+91 8600386053 | manetejraj009@gmail.com | LinkedIn | GitHub

Ashta, Dist. Sangli, Maharashtra, 416301

Professional Summary:

Detail-oriented B.Tech student in AI & Data Science with strong Python fundamentals and a growing focus on GenAI and LLM applications. Hands-on experience in building AI-based projects and solving real-world problems. Quick learner, eager to develop and contribute to impactful AI solutions in a fast-paced environment.

Education:

- **B.Tech:** Annasaheb Dange College of Engineering & Tech, Ashta. CGPA: **8.23** **2026.**
- **HSC:** Sainik School Satara Maharashtra. [CBSE] Percentage: **60.80%** **2022.**
- **SSC:** Sainik School Satara Maharashtra. [CBSE] Percentage: **79.80 %** **2020.**

Skills:

- **Technical Skills:** Python (Pandas, NumPy), SQL, Basic OOPS, Debugging.
- **Tools & Platforms**: Jupyter Notebook, Google colab, VS Code.
- **Soft Skills:** Communication, Teamwork, Problem-solving, Attention to detail.
- **Languages Spoken:** English, Marathi, Hindi.

Work Experience / Internships:

- Tecspeak It Sol. Sangli | DBMS-SQL. **June 2024.**
- Corizo powered by Wipro (Virtual) | Data Science in Python Internship. **February 2024.**

Certifications:

- Data Science in Python by Corizo [2024].
- Data Analytics using Power BI by Tech Tip 24 [2024].
- Prompt Engineering certification [NSDC].
- NPTEL Certification in Leadership and Team Effectiveness | Silver.

Projects:

1) AI-Based Mental Health Support System. **2026.**

- **Tech Stack:** Python, HTML, CSS, Ollama, OpenCV.
- Developed an AI-based mental health support system that provides empathetic responses and personalized wellness guidance through natural language conversations.
- Designed the user interface using HTML, CSS, integrated an LLM for intelligent response generation, interactive games, guided meditation, validated chatbot outputs for accuracy and reliability, and analyzed user interactions to improve system performance.

2) Mental Health Chatbot Support. **2025.**

- **Tech Stack:** Python, Streamlit, Ollama.
- To develop an AI-powered chatbot that provides personalized mental health support, empathetic responses, and wellness recommendations through natural conversations.
- Designed and implemented an interactive chatbot using Streamlit for the interface and Ollama-integrated LLaMA-based LLM for intelligent dialogue generation. Applied data analytics to analyze user interactions and enhance response accuracy and personalization.

Extracurricular Activities and Achievements:

- **Winner** at Innovation 2023 National Level Competition.
- **Winner** in Football zonal and Inter zonal Affiliated by Shivaji University.
- **Student Coordinator** at Hackathon 2025 Season 2 at ADCET Ashta.
- Completed the AI Green Skill [Python] Workshop.
- Participated in National Level Paper Presentation Conference.
